EDUCATION

January 2019 - Present

Degree: Ph.D. in Mechanical Engineering
Location: The University of Texas at Dallas (UTD)
Texas A&M University (TAMU) (Transfer to UTD in Fall 2024)
Stevens Institute of Technology (Transfer to TAMU in Fall 2020)
GPA: 4.00
Advisor: Assistant Professor **Kianoosh Yousefi**
Dissertation Topic: Navigating the Turbulent Seas: Unraveling Flow Dynamics in Offshore Wind Turbines amidst Wake-Wind-Wave Interactions
Tool: Experiment, Deep Learning, Home-built codes & OpenFOAM

March 2017 - May 2023

Degree: M.Sc. in Aerospace Engineering
Location: Cairo University, Giza, Egypt
GPA: 3.90
Advisors: Professor **Mohamed Madbouli Abdelrahman**
Professor **Amr Gamal Guaily**
Dissertation Title: Active Flow Control Using a Morphing Bump For A Transonic Flow Over An Airfoil
Tool: Home-built FEM MATLAB code & OpenFOAM

September 2011 - June 2016

Degree: B.Sc. in Aerospace Engineering
Location: Cairo University, Giza, Egypt
GPA: Distinction Honors, 88.73%
Advisor: Professor **Mohamed Madbouli Abdelrahman**
Grad. Project Title: Design a Flying Wing
Tool: Home-built FDM MATLAB code, Mathematica, ANSYS, XFLR5, & Wind Tunnel Experiment

Ph.D. courses

Fluid Dynamics for Ocean & Environmental Engineering.	Intro to Ship Design & Building.
Hydrodynamics of High-Speed Marine Craft.	Turbulence and Turbulent Flows.
Mathematics Methods in Science & Engineering II.	Hydrodynamics.
Numerical Methods in Mechanical Engineering.	Advanced Aerodynamics
Computational Fluid Dynamics-Aerospace Applications.	Turbulence Modeling.
Ocean Experiments & Oceanographic Measurements.	Turbulence Processes.
Nonlinear Hydrodynamic Problems.	Computational Aerodynamics.
Intro to Validation, Verification, & Uncertainty Quantity.	High-Performance CFD.
Deep Learning for Petroleum Engineering Using Python.	Professional Development STEM.

M.Sc. courses

Finite Element Method in Fluid Mechanics (FEM).	Computational Aerodynamics (FDM).
Technical Writing for Scientific Publications.	Advanced Numerical Analysis.
Experimental Methods in Aerospace Engineering.	Aero Elasticity.
Numerical Methods in Propulsion Systems (FVM).	Selected Topics in Aerodynamics.
Modern Control of Flight Systems (Multi-Variable Control).	

RESEARCH EXPERIENCE

August 2020 - December 2023 - TAMU	Position: Locations:	Graduate Research Assistant Texas A&M University Stevens Institute of Technology
January 2019 - July 2020 - Stevens	Lab: Advisor: Projects:	Fürth Laboratory Assistant Professor Mirjam Fürth Hydrokinetic Flapping Foil Turbines, Point Wave Energy Converters, Oscillating Cylinder, and Planing High-Speed Crafts.

Contributions

- Developed a home-built code designed for investigating hydrokinetic energy converters.
- Investigated the hydrodynamics of Leading-Edge Vortex (LEV) over a flapping foil in swing-arm mode.
- Investigated the impact of varying the foil shape parameters on the Leading-Edge Vortex (LEV) and power extraction throughout the flapping cycle in swing-arm mode.
- Developed a deformable Overset mesh technique in OpenFOAM for flexible flapping foils.
- Implemented the PANS turbulent modeling technique in OpenFOAM.
- Proposed a numerical towing tank for the planing high-speed craft using a turbulent PANS model.
- Investigated the effect of buoy shape on the power-generating ability in a point wave energy converter.
- Investigated the effect of changing the wave characteristics on the power-generating ability of the spheroid buoy system.
- Helped in writing grant proposals.

Research Skills and Interests

Personal:	Presentation skills, Time management, Planning skills, and Leadership
Programming:	- Proficient in Fortran, OpenFOAM, Mathematica, C++, GitHub, Python, Bash, Linux HPCFD, SLURM, LATEX, OpenFAST, NEMOH, & Matlab, R, TensorFlow, Keras.
Software:	- Proficient in SolidWorks and AutoCAD - Good in Fluent ANSYS
Interests:	- Ocean and Wind Renewable Energy Applications, such as Wave Energy Converters, Hydrokinetic Turbines, and Floating Offshore Wind Turbines. - Supersonic and Transonic Flow Applications, such as Morphing Bump over a Transonic Airfoil and Moving Supersonic Intakes. - High-fidelity turbulence modelings, such as PANS and LES. - Developing CFD Tools/Codes. - Fluid-Structure Interaction Simulations - Numerical and Experimental Wind and Wave Tanks. - Planning High-Speed Crafts.

Research Collaborations

March 2023 - May 2024	Project: Advisors: Description:	Ship Hull Optimization Assistant Professor Mirjam Fürth, TAMU Professor Antony Jameson, TAMU Professor Luigi Martinelli, Princeton University Developing codes and investigating related phenomena.
January 2023 - August 2023	Project: Advisors: Description:	Turbulent PANS Model Assistant Professor Mirjam Fürth, TAMU Professor Sharath Girimaji, TAMU Implemented different turbulent PANS models in OpenFOAM and performed validation simulations.
May 2022 - March 2024	Project: Advisors: Description:	Modified OverSet Mesh in OpenFOAM Assistant Professor Mirjam Fürth, TAMU Professor Ludovic Chatellier, Université de Poitiers - Developed a modified OverSet meshing technique to simulate deformable moving bodies, such as flexible flapping foils. - Improving the coupling library between OpenFOAM and PreCICE to perform a Fluid-Solid Interaction (FSI) simulation.

Research Mentoring/Co-Advising

Mentoring/co-advising students in conducting numerical simulations and publishing papers.

January 2021 - May 2023	Project: Students: Main Advisor:	Point Wave Energy Converters Junior/Senior Students at Ocean Eng. Dept., Texas A&M Univ. Assistant Professor Mirjam Fürth
September 2021 - January 2024	Project: Students: Main Advisor:	Heat Transfer from an Open-Ended Vertical Channel M.Sc. Student at Chemical Eng. Dept., Alexandria Univ. (Remotely) Assistant Professor Mahmoud Taha Moharam
September 2022 - October 2023	Project: Students: Main Advisors:	Machine Learning in CFD of Transonic Flow over an Airfoil Senior/M.Sc. Students at Aerospace Eng. Dept., Cairo Univ. (Remotely) Professor Mohamed Madbouli Abdelrahman DR. Mahmoud Ayyad

TEACHING EXPERIENCE

January 2024 - May 2024	Position: Location: Courses:	Lecturer Texas A&M University OCEN 362 Hydrodynamics (Junior Level)
August 2023 - December 2023	Position: Location: Course: Advisor:	Graduate Teaching Assistant Texas A&M University AERO 689 Computational Aerodynamics (Graduate Level, 15 students) Professor Antony Jameson
January 2023 - May 2023	Course: Advisor:	OCEN 689 Turbulence Modeling (Graduate Level, 12 students) Professor Sharath Girimaji
January 2022 - December 2022	Courses: Advisor:	OCEN 402 Naval Architecture (Senior Level, 55 students) OCEN 362 Hydrodynamics (Junior Level, 52 students) Assistant Professor Mirjam Fürth

May 2019 - August 2019	Position:	Teaching Assistant
	Location:	Pre-College Program, Stevens Institute of Technology
	Course:	Civil Engineering, Design, and Architecture A and B (AUTOCAD Program) (High-School Level, 35 students)
	Advisor:	Teaching Professor Leslie Brunell
May 2018 - September 2018	Position:	Teaching Assistant
	Location:	Egyptian Russian University, Egypt
	Courses:	AUTOCAD, and Mathematics II (Freshmen Level, ~45 students)
	Advisors:	Assistant Professor Ali Mahmoud Al-Sharawy Professor Abdel Baset Ismail
September 2017 - June 2018	Position:	Teaching Assistant
	Location:	Zewail City of Science and Technology , Egypt
	Courses:	CFD, Low-Speed Aerodynamics, Aircraft Conceptual Design, Introduction to Astronautics, Orbital and Space Flight Mechanics, Wind Energy: FAST Program, and Engineering Production. (Multi-Levels, ~20-30 students)
	Advisors:	Assistant Professor Ahmed Eltaweel Associate Professor Mostafa Abdallah

Contributions

- Delivered lectures, held office hours, and prepared projects, quizzes, and exams.
- Evaluated student deliverables and provided in-depth feedback.
- Used the web-based learning management system (Canvas) to organize course materials, announcements, and grades.

INDUSTRY EXPERIENCE

May 2022 - August 2022	Position:	Research & Development Engineering Intern
	Company:	Front Energies
	Location:	Houston, TX
	Contribution:	Integrated the mooring solver (MoorDyM) with OpenFOAM by building a new linking library in OpenFOAM Conducted validating simulations for the moored floater of a FOWT
July 2016 - October 2018	Position:	Research & Development Mechanical Engineer (SOLIDWORKS)
	Company:	Instant Green Energy
	Location:	Cairo, Egypt
	Contribution:	Worked in the field of energy-generating machines (magnetic motors)

SERVICE

September 2021 - June 2023	• Senator for Ocean Engineering Department at Graduate and Professional Students Governments at Texas A&M University.
March 2022 - August 2023	• Recruitment and outreach officer of the Aggie Pregnant and Parenting Student Organization at Texas A&M University.
July 2022, October 2022, June 2023 & June 2023	• Reviewer in - SNAME Maritime Convention (SMC) 2022, - 4th Novel Intelligent and Leading Emerging Sciences (NILES) conference 2022, - International Mechanical Engineering Congress & Exposition (IMECE) 2023, and - American Institute of Aeronautics and Astronautics (AIAA) SciTech conference 2024.

May 2021 - December 2022	<ul style="list-style-type: none"> • Presenter for Ocean Engineering Department, Texas A&M University - College Station at Graduate Engineering Student Advisory Council.
January 2022 & September 2022	<ul style="list-style-type: none"> • Moderating Session Chair at AIAA Science and Technology Forum and Exposition (AIAA SciTech) and SNAME Maritime Convention (SMC).
March 2022 - June 2022	<ul style="list-style-type: none"> • Tutor for a computational fluid dynamics course of 'Introduction to OpenFOAM' at Egypt Scholars.
Spring 2020	<ul style="list-style-type: none"> • Tutor for academic writing sessions about 'Latex' at Stevens Institute of Technology.
December 2018	<ul style="list-style-type: none"> • Academic Judge at The 7th Undergraduate Research Forum, Nile University.
July 2015	<ul style="list-style-type: none"> • Represented Space System Technology Lab. at the 3rd UNISEC GLOBAL Meeting, Japan.

SCHOLARSHIPS/AWARDS

Fall 2023 - Spring 2024	<ul style="list-style-type: none"> • America Bureau of Shipping Scholar, TAMU, America Bureau of Shipping Scholarship for academic and research excellence.
Spring 2023	<ul style="list-style-type: none"> • TAMU, Lawrence F. Guseman Award for outstanding contributions to the success and prosperity of the GPSG and the Graduate and Professional Student Body.
Fall 2022	<ul style="list-style-type: none"> • Fluids Engineering Division Summer Meeting - American Society of Mechanical Engineers, Who's Who Video Competition Award, 2nd place.
Summer 2022	<ul style="list-style-type: none"> • Society of Naval Architects and Marine Engineers, Graduate Student Paper & Poster Awards.
Summer 2022	<ul style="list-style-type: none"> • Fluids Engineering Division Summer Meeting - American Society of Mechanical Engineers, Karman Ghia Graduate Student Scholarship.
Spring 2022	<ul style="list-style-type: none"> • Office of Graduate and Professional Studies, TAMU, The Center for the Integration of Research, Teaching, and Learning (CIRTL) Associate Award. Course completed with distinction: An Introduction to Evidence-Based Undergraduate STEM Teaching.
Spring 2022	<ul style="list-style-type: none"> • Graduate and Professional Student Government, TAMU, Travel Award.
Spring 2022	<ul style="list-style-type: none"> • Student Research Week, TAMU, Texas Sea Grant Special Award for research excellence in Wave Energy Converters.
Fall 2021 - Spring 2022	<ul style="list-style-type: none"> • America Bureau of Shipping, TAMU, America Bureau of Shipping Scholarship for academic and research excellence.
2020, 2023	<ul style="list-style-type: none"> • Ocean Engineering Department, TAMU, Department Scholarship.

OTHER CERTIFICATES

2016	<ul style="list-style-type: none"> • Participation certificate from International Space Apps Challenge, Zewail City.
2015	<ul style="list-style-type: none"> • Participation certificate from Open Code for Sustainable Development Camp on the occasion of the Social Good Summit, AUC.
2015	<ul style="list-style-type: none"> • Participation and 3rd place certificates, at Scientific Poster Competition from 2nd Annual Undergraduate Scientific Conference, Zewail City.
2015	<ul style="list-style-type: none"> • Participation certificate and Innovation reward about attitude control during the acceleration phase, at Project Dragonfly Design Competition from The Initiative For Interstellar Studies, London.

COMMUNITY SERVICE

2020 - 2024	<ul style="list-style-type: none"> • Islamic Community of Bryan College Station (ICBCS), <i>Volunteer</i>.
2014 - 2015	<ul style="list-style-type: none"> • Rwaq, Arabic E-learning Website, <i>Ambassador</i>.
2013 - 2014	<ul style="list-style-type: none"> • IEEE-Cairo University Student Branch, <i>Non-technical Writer</i>.
2010 - 2011	<ul style="list-style-type: none"> • Resala and Life Makers charities, <i>Volunteer</i>.
